The shipping bill advocated by Mr. Hale and other Republicans of the Senate, "to require the employment of vesposes," was taken under consideration in the Secretary of Commerce and Labor to investigate the causes of the low ance with an agreement made just prior to adjournment last Saturday. Under since July 1, 1903, and the unusually the unanimous consent then given a vote will be taken this afternoon before ad-

The present bill (Senate 2263) refers only to the carrying of supplies for the army and navy from an American to foreign port. It is intended to regulate the trade to the Philippines. A companion bill (Senate 2259), which, it is expected, will be urged immediately after the passage of the pending bill, extends the provisions and restrictions to trade outside the army and navy, or otherwise, to all general trade.

Mr. Teller was recognized as soon as the bill was laid before the Senate. He began the speech for which he took the floor late Saturday afternoon, when he consented to yield because of a desire of other Senators to adjourn.

There was a great deal of confusion There was a great deal of confusion in the Senate chamber, and the Chair rapped vigorously for order. Senators continued in conversation, however, and it was some moments before quiet was obtained. Mr. Hale of Maine came to Mr. Teller's rescue and urged the necessity of "at least enough quiet to enable a Senator to hear himself."

"I do not know whether the Philippines are a part of the United States or not, nor do I know what relation they bear to the United States in a constitutional way. But whatever relation they bear, it is a relation of unusual nature. We are there at least as a trustee.

The Colorado Senator referred to Senator Lodge's presiding over the last Republican National Convention and quoted what he said at that time regarding the Philippine problem. "We regard it as a sacred trust to look out for them," quoted Mr. Teller from Mr. Lodge's remarks on that occasion.

"That we will make no hypocritical pretense of being interested in the Philippines on account of others," as the junior Massachusetts Senator said then, is amply borne out by this bill." continued Mr. Teller. "As it stands, the bill will be only to increase the expenditures of the army and navy, for of course these vessels will not bring anything back, except the bodles of dead soldiers and sailors."

TO PRINT DOCUMENTS FOR SALE TO THE PUBLIC

A blanket resolution empowering the Public Printer to reprint public docu-monts for purposes of sale was adopted by the Senate this afternoon.

Its title was to reprint a document on diseases of the horse and a similar treatise relating to cattle, for both of which a large demand exists, accordling to an official report made to Mr.
Platt of New York, chairman of the
Printing Committee. This, however, is
the smallest feature of the resolution. provisions will permit the reprinting of any public document for which, in the opinion of the Public Printer, a sufficient demand exists.

The number of copies of public documents furnished for sale varies from twenty-five to one hundred copies, the report to Mr. Platt stated, while at times as many as 1,000 could be sold. The money paid for the documents is to be used to defray the expense of their reprinting.

VOTE ON DISTRICT BILL HASTENED IN THE HOUSE

After passing several minor bills the House today resumed consideration of the District appropriation bill. At the suggestion of Mr. McCleary, who is in charge of the measure, an agreement was reached with the Democrats to close the general debate on the bill to lose. was reached with the Democrats to close the general debate on the bill in four heurs. The measure will then be taken up and read under the five minute rule and it is probable that several amendments will be offered. A vote will not be reached until tomorrow.

Representative Martin was heard b the committee in support of his resolu-tion. He charged that the price of dressed beef has steadily increased, although the price of beef on the hoof has steadily declined, and that this condition is due to the combination of large packing houses. Seven of these houses he declared, made profits last year : excess of ordinary profits, due to the methods, aggregating \$149,000 daily.
